

In-house Training of technical staffs on “Data Analysis in Microsoft Excel” during 2-6 September, 2024

Inaugural session of one-week training program on ‘Data Analysis in Microsoft Excel’ scheduled during September 02-06, 2024 was held on September 02, 2024 in Conference Hall of the ICAR-Central Arid Zone Research Institute, Jodhpur. The training is sponsored by Human Resource Development and Higher Education Unit (HRD & HE) of the institute. The objective of the training is to enhance computational skill and knowledge of technical staff of the institute for the better data handling and analyses performed in Microsoft Excel. A total of 21 technical staffs from different divisions and sections of the institute have been participating in the training program. At the outset, Dr. Surendra Poonia, Chairman, HRD & HE Cell delivered welcome address. Dr. Vandita Kumari, Scientist and organiser of the training programme briefed about content and schedule of the training programme. Dr. Priyabrata Santra, Head, Division of Natural Resources highlighted importance of the training for technical staff who are attached with research projects and data monitoring activities. Director (Acting), Dr. Sumant Vyas, in his address advised the participants to learn as much as possible from the training in order to assist the scientific staff in a better way. He told that Microsoft Excel though having a humble beginning has been able to adapt itself with multiple functions and is compatible with even today’s era of artificial intelligence. At the end, Dr. Deepesh Machiwal, Principal Scientist and co-organiser of the training programme proposed a formal vote of thanks.
