

***Kishan Goshthi* on improved production technology of Cumin and Mustard**

A *Kisan Goshthi* was organized on Oct 25 and 26 under SCSP at experimental farm Chandan of CAZRI RSS Jaisalmer. In this *Kisan Goshthi*, Dr. R.S Mehta, Head CAZRI RRS Jaisalmer first explained about the objectives of the SCSP programme and also apprised about the improved agronomic practices of Cumin and Mustard. Dr. S.C Meena Senior Scientist stressed upon the seed and soil treatment with bio-fungicide for insect-pest and disease management. Sh. Kushwant Choudhary advised farmers to participate actively in all such programme. About 150 farmers from Dhaisar, Delasar, Chandan and Saudakaur village of Jaisalmer district participated in the *Kisan Goshthi*. Queries of farmers regarding crop, fruit and vegetable production were addressed by the scientists. Critical inputs like seeds of improved varieties of Mustard (NRCHB-101) and Cumin (GC-4) were given to farmers for laying front line demonstrations on farmers field. Sh. Vikram Prajapati, Sh.Piyush, Sh.Roshanlal, Sh.Sumit and Sh.Ubedullah Khan assisted in distribution of critical inputs and organizing *Kisan Goshthi*.
